# CT200

Durable and versatile fixed tablet display, wherever you do business.
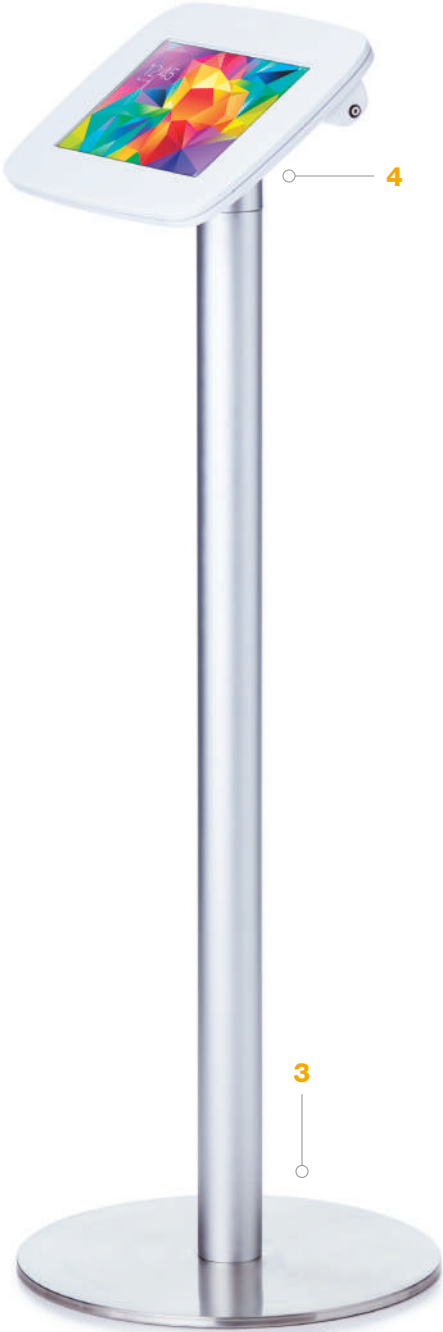

‹ Freestanding base shown

## The CT200 is a high security, fixed tablet solution that allows businesses to place tablets anywhere.

It features three stand options that include a counter display, wall/VESA mount and floor stand. The CT200 is the ideal product for applications that require tablets to be removed infrequently, quite often only for maintenance or security lock up. Tamper resistant and durable enough for high traffic environments, the CT200 is distinct in its ability to offer security and ease of maintenance in any commercial setting.

## FEATURES AND BENEFITS

**1** Three counter-based stands — fixed, swivel and freestanding

**2** Low profile wall mount bracket with standard 75 mm VESA pattern

**3** Floor stand features a weighted base designed to be resistant to accidental tipping and can be bolt mounted for added stability

**4** Tablet tilt is standard on the floor stand (from 30° to 85°)

**5** Frames compatible with 10" and 12" tablets

---

**FEATURES AND BENEFITS (continued)**

**1** Tilt option available for all stands

**2** Supports integration of audio jack extender and payment device

**3** Self-locking frame cover with audible indicator

**4** Durable enough to be left unattended, withstanding over 300 pounds of pull force

**5** Compatible with InVue's secure IR Keys

**6** Tamper resistant

# CT101

Universal Tablet Stand
Tablet Power, security, and mobility for any environment

## The CT101 is a high-security, instantly mobile universal tablet stand with integrated charging.

When docked the CT101 automatically locks and immediately begins charging so that the tablet is secure, completely powered and ready for use. The rugged tablet enclosure can be easily removed for mobile use and includes ergonomically designed handles with straps to reduce user fatigue and can be adapted to a variety of business needs.

# High-security, instantly mobile universal tablet stand with integrated charging

**FEATURES AND BENEFITS**

**1** Rugged all-metal stand securely mounts to any drillable surface

**2** In-stand contacts charge tablet when docked to support standalone or attended use 24/7

**3** IR interface is easily accessed. OneKEYTM or CT Key instantly unlocks tablet for mobility with no impact to transaction time

**4** Easily rotate tablet between portrait and landscape orientations

**5** Swivel base option rotates 180° in either direction for enhanced customer engagement

**6** Base plate option for drill-free surfaces

**7** Optional tablet frames provide additional protection from theft and abuse

# CT80/150

The freestanding tablet display that's ready to use right out of the box.

## Take your business to your customers with a fixed kiosk and mobile tablet solution.

CT80 and CT150 provide a freestanding tablet display that's ready to use right out of the box. Tablets can easily be rotated to portrait or landscape mode as well as flipped to face the customer. The CT80/CT150's versatile design allows the tablet to easily be removed for mobile use from the base plate providing a second auxiliary stand as well as a convenient handle. CT80 and CT150 work with all tablets regardless of manufacturer or operating system.

# Business Solutions

**FEATURES AND BENEFITS**

**1** Utilize OEM power cable for charging (CT80 only)

**2** Integrated charging keeps your tablet powered and ready to use (CT150 only)

**3** Tablet can go from fixed to mobile in seconds with InVue's OneKEY™ (CT150) or a simple switch

**4** CT80/CT150 supports a wide range of tablet sizes regardless of manufacturer or operating system

**5** Easily rotate between landscape and portrait display and flip to face the customer

**6** Freestanding out of the box with fixed mounting options available

CT80

CT80

CT150

CT150IR

## FEATURES AND BENEFITS (continued)

**1** For a fixed kiosk solution use the CT80 key to disable the handle latch (CT80 only)

**2** CT150 wall mount with mechanical lockdown allows face of tablet to be less than 4" from wall (universal mount with 75mm VESA pattern)

**3** Supports Micro USB, USB-C, Apple and custom power connection tablets

**4** Turn your tablet into a POS device with an easy to add card swipe/chip reader device bracket

**5** Supports use of 3rd party frames/cases

# CT Key

Designed specifically for commercial environments.

Simple and secure, the CT Key is a single key solution
that is superior to traditional keys.

The CT Key allows for secure and rapid tablet undocking. A unique secure code can be programmed by
location or choose to have the same code for all locations. Quickly and easily recode and reuse the key
as many times as needed.

# Business Solutions

## FEATURES AND BENEFITS

1 Secure and rapid undocking
2 Unique secure code for every location
3 Use as single key solution on all devices or add keys as needed

4 FOB programs keys with unique code
5 Recode as many times as needed
6 LED light indicates key is functional
7 No charging or programming station required

# Payment Cradles

Payments made quick and easy.

## Keep your payment devices charged and ready to use on these custom cradles.

These stand alone units are light weight and easily paired with an InVue point of sale system or any USB supported point of sale system. The Moby 8500 and Verifone E355 cradles are equipped with a slip resistant base to ensure a positive customer experience or they can also be adhesive mounted to the counter for extra support. Both support charging and data communication. The payment devices can also be removed from the cradles for mobile use.

# Charging Stations

Solutions for charging for multiple devices at once.

Both of InVue's charging solutions provide a secure way to consistently, quickly and securely power devices used with our most mobile solutions, CT300 and NE360.

With five individual slots that can individually charge all integrated devices at the same time. Each slot has an individual charging indicator for immediate access to usable devices. Provides quick access and reliable cable-free charging to avoid messy cable-management and the ability to bolt-mount to surface and counter for strengthened security and durability.

# Ideal for completely mobile solutions that do not use stands or mounts for tablets or have tablets on constant rotation.

**CT300 CHARGING STATION FEATURES AND BENEFITS**

**1** Can charge up to 10 devices using InVue frames

**2** Push button release protects tablets from shifting while charging

**3** Optional key release function utilizes InVue key solutions to undock tablets for added security

**4** Individual indication lights blink when individual tablets are charging, and automatically turn solid when devices are fully powered or have charged for 6 hours

**5** Can be wall-mounted using key slots

# Ideal for environments that use InVue's NE360 handheld or tablet integrated mPOS solutions.

**NE360 CHARGING STATION FEATURES AND BENEFITS**

**1** The same five-position station can simultaneously charge up to 10 devices regardless of the mix of NE360 handheld and tablet cases

**2** All devices charge at the same time using their maximum rated current for fastest charge time

**3** Each position provides a clear LED charging status indication, as well as any connectivity fault

**4** The LED for each slot give a true full charge indication – solid white LED means both devices are fully charged

**5** Minimal profile with no cables to manage
