FORSTAG SDS PLUS - INSTRUCTIONS

1. Insert the drill bit in the upper part of the tag by pushing it all the way in.

2. Slide the label on the upper part as shown below :

**3.** Close the tag by folding the upper part and the lower part.

4. Keep the tag closed and push the retractable pin's button down to secure it.

The tag's rear arm secures the label when it is closed and secured.

6. The drill bit and its label are secured, you can now safely display them in your store.

. . . .

5 Opening. Place the conical lower tip in the magnet's well to open the tag.

Easy opening with its opening spring
