IR StopLok™
integrates with existing hooks and fixtures

Display and protect merchandise on any commodity peg hook. The IR StopLok quickly and easily integrates with your store's current system. You control the amount of live and locked merchandise on display.

Feature	Benefit
Attaches to commodity peg hooks	Works with current setup
Small footprint	Maximizes merchandise branding
Rugged design	Can withstand manual attacks
Place anywhere on wire	Control amount of live and locked merchandise
Works with IR2 Key	One key for a store-wide security solution
